Internet safety

Internet safety

Never share your details with anyone on the internet that you don't know, such as your address ,name, age, school and number.

Never use a picture of you as your avatar and try avoiding scams to prevent losing accounts, such as bank or personal information accounts.

Be Responsible

Being responsible on the internet is crucial.
If you weren't responsible on the internet you could leak some of your important information.

Be cautious

ALWAYS know who you are talking to and stay off certain social media, NEVER meet up with the people you talk to online !
